## EXPERIENCE

**IBM** New York, NY · Sep 2020 – Present

**Marketing Ecosystem Analytics Lead** Sep 2025 – Present

- Designed the Ideal Partner Profile, a statistical model ranking 10,000+ IBM business partners that now decides which receive funding, support and leads, across an ecosystem generating $1B+ in pipeline.
- Connected partner data scattered across spreadsheets and systems into a single ecosystem funnel, and built a dashboard suite with 100+ users and visibility up to IBM's CMO.
- Cut dashboard delivery from 8 weeks to as little as 4 days by building with AI tools (Claude, IBM Bob, Copilot) in Python and HTML; trained the team in SQL, dashboarding and AI-assisted analytics.

**Data and AI Marketing Analytics Lead** Jan 2025 – Sep 2025

- Led analytics for 6 marketing teams covering IBM's priority Data and AI products (watsonx.ai, Cognos, SPSS and more).
- Designed and taught the training that built a new analytics team: SQL, Python, storytelling and presenting.

**E-Commerce Analytics Lead** Jun 2024 – Dec 2024

- Built IBM's first end-to-end e-commerce funnel, from web visits through checkout events to billed revenue, by joining marketing-page, Segment and finance billing data in SQL, Python and Tableau.
- Mapped tens of millions of dollars in deals previously untraced to the marketing journey; the funnel was adopted across IBM marketing to measure how marketing drives digital transactions.

**Product-Led Growth Analytics Lead, Security** Jan 2023 – Jun 2024

- Led a team of 4 analysts supporting 6 marketing teams; analytics lead and point person for Turbonomic marketing.
- Identified slow lead follow-up as the funnel's largest bottleneck; follow-up went from 95% of leads worked within a week to 95% within a day, driving a sharp rise in worked leads and opportunities.
- Designed the executive dashboard the marketing organization uses to track annual objectives; led team upskilling and training.

**Digital Analytics Lead** Apr 2022 – Dec 2022

- Led 2 analysts and 4 new hires on which parts of the web journey drive pipeline; found visitors with a pricing-calculator experience were 3× more likely to convert to an opportunity, leading four product teams to commit to page changes and helping win funding for calculators across products.

**Marketing Demand Lead, IBM Verify** Oct 2021 – Apr 2022

- Ran marketing for IBM Verify across product marketing, sales, digital and content; roughly doubled web-page-to-lead conversion through web-pattern analysis and tighter audience targeting.

**Analytics Professional** Sep 2020 – Oct 2021

- Built an end-to-end view mapping web visits, emails and responses to opportunities; showed Scheduler and Contact Module responses are among the most valuable, changing how IBM categorizes and values them.

**Macy's** New York, NY · Jun 2018 – Jun 2020

**Manager, Analytical Consulting**

- Built a SimPy simulation of inventory strategies that led to Hold and Flow, a new strategy estimated to lift sales 10% (covered by Supply Chain Dive and Forbes).
- Piloted it with a SQL and Python algorithm that forecasts sales per product and routes units to stores: 10% margin increase on 40,000+ units and $150K+ profit in 8 weeks.
- With one other data scientist, scaled the algorithm to about 10,000 units moved to stores per day, averaging a 10% sales increase.

## EDUCATION

**University of Michigan, Ross School of Business** · BBA, Business Administration; Minor in Computer Science 2018

**Earlier experience:** IBM Marketing Consultant Intern (regression model that set 3 markets to start and 20 languages to stop web translation) · Intel North American Marketing Intern (ROI analysis allocating $6M+ in partner marketing) · Quicken Loans IT Business Analyst Intern (automation saving 128 work hours a year)

## SKILLS

SQL, Python, Tableau, DuckDB, HTML/JavaScript dashboards (ECharts), regression and statistical modeling, simulation, AI-assisted development (Claude, IBM Bob, Copilot)
